## Finnexx ROVOLINE R1 Oils

## Monograde Motor Oil

## PRODUCT DESCRIPTION

Finnexx Rovoline R1 Monograde Motor Oils are passenger car engine oils. They are specially formulated from selected mineral base stocks and performance additive technology to meet the lubrication requirements of older gasoline engines, but can also be used in older non-turbo-charged diesel passenger car engines.

## CUSTOMER BENEFITS

- Provides protection against engine sludge and varnish deposits.
- helps to minimize friction and wear at start-up.
- provides resistance against viscosity and thermal breakdown.
- provides rust and corrosion protection.
- inhibits the formation of black sludge in older vehicles prone to this problem.

## APPLICATIONS

Finnexx Rovoline R1 Monograde Motor Oils have been developed essentially for gasoline engines, but will also give good performance in older naturally aspirated diesel passenger cars. Should only be used in strict adherence to the car manufacturers' recommendations for viscosity grade and service category should be observed.
